

FIBREGLASS FLAT PANEL

Designed to eliminate problems in areas that have been identified as a significant slipping hazard. These plates will assist users in managing these areas with confidence as well as having the assurance of a product that is high in performance and reliability. Even in the most slippery environments (with the presence of water, oils and other slippery substances), the non-skid grit plate's anti-slip capabilities remain unaffected.

COLOURS/ DESIGNS

Yellow

APPLICATIONS

- Ideal for ladders, ramps, walkways, warehouse floors, slip-hazardous areas

FEATURES

- Same surface as stair nosing
- Provides ultimate floor safety
- Easily cleaned by hosing
